WHEN YOU PLANT YOU WANT THE BEST. SOW YOPP'S "CHIEF BRAND" FIELD SEED. THEY ARE BEST.
It pays to keep your bees in up-to-date accurately made equipment. The returns more than pay for it in one year. Authorities on bees say that it is necessary to have beekeeping equipment accurate in every detail for the best results. Accordingly, we decided to handle Lewis “BEEWARE” for our customers. Our equipment will enable you to produce the biggest and best crops of honey.

We carry in stock the bee supplies mostly used. If others are wanted we can secure them for you.

Hive With Metal Cover

1 Hive K. D. Wt. 32 lbs. $ 3.55
5 Hives K. D. Wt. 151 lbs. 16.10

8-frame Sizes Also Furnished

10-frame Shallow Super when set up. Frames 5½" 1 Super with Frames K. D. Wt. 10 lbs. $1.25
5 Supers with Frames K. D. Wt. 40 lbs. 4.90

10-frame Metal Cover Hive, set up. No foundation.

Lewis “BEEWARE” is guaranteed to be perfect both in workmanship and material. You shall be sole judge of its worth. If any article purchased does not satisfy you upon receipt, return it at once and we will refund your purchase money together with any transportation charges you may have paid.

All the wooden goods are made out of absolutely clear lumber, smooth and accurately cut and parts fit together like furniture. No whittling necessary to assemble these hives.

We can supply Favorite Brand Sections for less money.

If interested in any other items not listed on this page send for complete catalog.

ASPARAGUS SEED
Prices Include Postage

Columbian Mammoth White. Clear white shoots, not tinged with pink or purple, tender and excellent quality. Ounce pkt. 10c, ¼ lb. 35c, 1 lb. $1.00.

New Palmetto. A favorite sort in the Southern section, being a little earlier than other sorts. Thick, succulent shoots. Oz. pkt. 10c, ¼ lb. 35c, 1 lb. $1.00.

Washington. The finest and largest variety of Asparagus now known. Extremely resistant to rust. Very vigorous grower, and is very tender, and is most uniform. Our seed are pure pedigreed strain. Pkt. 10c, oz. 20c, ¼ lb. 60c, 1 lb. $2.00.

2-YEAR-OLD ASPARAGUS ROOTS
Price for roots, well packed, to go by freight or express at buyer’s expense:

WRITE FOR PRICES ON LARGE LOTS

WAX PODDED DWARF BEANS

Prolific Black Wax. (60 days). This is a much improved strain of the old black wax. Its habit of growth is stronger; it has longer, straighter, and more rounded pods, and is far more productive. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50, 10 lbs. $2.70.

Wardwell’s Kidney Wax. (58 days). The very strong growing vines of this variety yield a large crop of long, nearly straight, broad, creamy white, handsome pods. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50, 10 lbs. $2.70.

Improved Golden Wax. (52 days). The plants are hardy and bear an abundance of straight, broad, flat pods. Resist rust to a marked degree. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50, 10 lbs. $2.70.

WRITE FOR PRICES ON LARGER QUANTITIES

VARIETIES FOR SHELLED BEANS ONLY
Known in Some Sections as Tobacco Patch Beans

Dwarf Horticultural. Large green pods, splashed with carmine. Excellent either as snaps in the green state, or shelled green or dry. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Royal Dwarf White Kidney. Excellent green or dry for soup, boiling or as baked beans. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

French Red Kidney. Similar to above; beans are maroon color. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Large White Marrow. Vine large, slender, with short runners; very prolific. Seed large, clear white, cooking very dry and mealy. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Dwarf White Navy. Is a sure cropper. Vine large, spreading, with small, thin leaves and occasional runners, ripening its crop early, and all at once. The beans are small, oval, white, handsome and of superior quality. Ask for prices.
GREEN PODDED DWARF OR BUSH BEANS

CULTURE—All garden beans are tender and should not be planted until danger from late frosts have passed. Any ordinary good warm garden loam will grow the dwarf kinds well. The best method of culture is to plant in rows two feet apart, sowing the beans two inches apart and two inches deep in the row. Working them wet with rain or dew makes them more liable to rust and injure the crop. For succession, sow at intervals of about two weeks until late August. For Extra Early Crops, drill sheep manure over the row to a depth of one to two inches. This prevents the ground from crusting and also adds much strength and vitality to the plants.

POSTAGE EXTRA ON BEANS
FOR POSTAGE RATES, SEE INSIDE FRONT COVER PAGE

One pound sows 80 feet drill. An acre requires one to one and a half bushels.

Tennessee Green Pod. (60 days.) A favorite sort in Tennessee and in the Middle Southern States. The beans are brown in color, a little larger than Kentucky Wonders, and are very hardy. It is very productive, producing long, flat pods, and on account of its extreme earliness and productiveness it is very popular. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50, 10 lbs. $2.70.

Giant Stringless Green Pod. (62 days.) This is an exceptional variety, possessing all the merits of its namesake, the stringless green pod, with much larger pods. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50.

Full Measure. (64 days.) This magnificent round podded bush bean bears long, round, green pods, always solid and exceedingly prolific. The pods are of an attractive green color, 5 inches long, firm, tender and remain fit for use many days after maturity. Pkt. 15c, 1 lb. 40c, 5 lbs. $1.75, 10 lbs. $3.50.

Bountiful. (52 days.) Of thrifty growth; rust and mildew proof; is very hardy; extremely early, bountifully prolific and bears continuously for several weeks. This variety bears immense green pods; thick, broad and extra long, of the highest quality. Is absolutely stringless. Pkt. 15c, 1 lb. 40c, 5 lbs. $1.75, 10 lbs. $3.50.

Extra Early Red Valentine. (56 days.) This variety was for many years the standard green pod Snap Bean, and the improved strain we now offer is surpassed in earliness and quality only by the stringless green pod. The pods are fleshy, round and saddledbacked, and while not stringless, are very profuse. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.50.

Burpee’s Stringless Green Pod. (58 days.) Without any exception it surpasses all others in crisp, tender flavor. Handsome, straight, green pods; all absolutely stringless and of beautiful fleshy appearance. 1 lb. 40c, 5 lbs. $1.75, 10 lbs. $3.00.

WRITE FOR PRICES ON LARGER QUANTITIES
REMEMBER—Yopp’s “Chief Brand” Field Seed is Always Best Seed Grown

NITRAGIN

THE LOWEST, SUREST, SAFEST AND PUREST NITROGEN FERTILIZER

Extra Early Red Valentine

Bountiful

BURPEE'S STRINGLESS GREEN POD
POLE OR CORNFIELD BEANS

CULTURE—Pole beans are tender and should be planted a couple of weeks later than the bush variety. A sandy loam soil, liberally manured, assures the best success. Plant in rows three feet apart, 6 beans to a hill, each hill two feet apart. After runners have started, thin to four plants to hill, setting your poles which should be five to eight feet long. Use one pound for 150 hills. Y

2 bushel to the acre.

Pole Beans are more easily gathered than the Dwarf Beans and yield more. They need good, strong poles, and are often planted with corn.

POSTAGE EXTRA

For Postage, see inside front cover page.

Yopp's Bushel Corn Field Bean. (72 days.) One of the best Corn Field Beans. Green podded, produces beans in clusters. Very productive. On account of the great number of beans on each vine, hence the name Bushel Bean; bears over a long period of season. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Striped Creaseback. (72 days.) One of the best cornfield beans grown. Is very vigorous and wonderfully productive in good soil. Pods round and quite fleshy, borne in clusters from four to twelve. Good length, silvery green color, and are the best quality as snaps. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Kentucky Wonder. (68 days.) Also known as Old Homestead. We believe this variety is the most practically useful of the green podded pole beans suitable for use as snaps. It is an early, very prolific sort, with showy pods which are of most excellent quality. The vines are vigorous, climbing well and very productive, bearing pods in large clusters. The pods are medium light green, very long, often reaching nine or ten inches, curved and twisted, nearly round and very crisp when young, becoming very irregular and spongy as the beans ripen. Seeds long, oval, slightly flattened, dun colored. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Dutch Case Knife. (68 days.) Pods very long, flat irregular, green, but becoming creamy white as they mature. Seed broad, kidney-shaped flat, clear white and of excellent quality, green or dry. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

White Seeded Kentucky Wonder. (68 days.) (Or Burger's Stringless Green Pod.) Early, yet bears for a long season. The pods, six to eight inches long, are borne in clusters, are of rich, dark green color, very meaty, entirely stringless, tender and of excellent flavor and quality. The pearly white beans make splendid dry beans for winter use. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Red Speckled Cut-Short. (76 days.) An old variety, very popular in the Central and Southern States for planting among corn. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

White Creaseback. (75 days.) The pods grow in clusters, are perfectly round and deeply creased or saddlebacked. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

McCaslan. (68 days.) Of a rich dark green color; 10 inches long, rather flat and slightly curved. It is productive and of good quality. White-seeded. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Lazy Wife. (84 days.) One of the best of the later green podded pole beans for snaps or green shell use. The medium green pods, borne in large clusters, are five and one-half to six and one-half inches long, broad, thick, fleshy and entirely stringless. The seed is white, medium size, slightly oval or nearly round. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Kentucky Wonder Wax. (68 days.) This vigorous growing wax podded pole bean is very similar to the green podded Kentucky Wonder. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.40, 10 lbs. $2.50.

Mixed Cornfield Beans. A mixture of cornfield beans, cut-shorts, long pods, early and late beans, to insure green beans throughout the entire season. Fine for planting in corn. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Write for Prices on Larger Quantities

WHEN YOU PLANT, YOU WANT THE BEST. SOW YOPP’S CHIEF BRAND FIELD SEED. THEY ARE THE BEST SEED GROWN.
LIMA BEANS—DWARF OR BUSH VARIETIES

CULTURE—Plant in May in rows like Dwarf Snap Beans; drop two beans every 12 or 15 inches apart. Cultivate like Snap Beans.

Dwarf Lima Beans are preferable for small gardens, especially in places where poles are hard to obtain. One pound of small-seeded sorts plants from 100 to 125 feet, and is sufficient for ordinary gardens or 2 pounds of large seeded sorts. For succession make two plantings 4 weeks apart.

Henderson's Dwarf Lima. (74 days.) The original Bush Lima Bean. Of the true Bush type, the bush grows from 18 to 20 inches high. Early to mature. Productive and a sure cropper. Beans much smaller in size than Burpee's Bush, and of same tender, buttery flavor as the old Pole Butter or Sieva Beans of the South. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Burpee's Bush Lima. (75 days.) A bush form of the true Large Lima. Plants uniformly dwarf, but enormously productive. Pods are large and contain from three to five very large flat beans of best quality. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50, 10 lbs. $2.50.

New Wonder Bush Lima. (78 days.) The plant more dwarf and less inclined to make runners than any other large Bush Lima. Beans broader and more flat. Very productive. Pkt. 15c, 1 lb. 35c, 5 lbs. $1.50, 10 lbs. $2.50.

Yopp's White Bush Lima. (75 days.) This Bean while similar to Yopp's Pole Lima is a true strain of Bush Lima (Southern Butter Bean), the pods containing large white beans almost twice as large as Henderson's Bush Lima. Very prolific. This is one of the best Southern Butter Beans introduced. Pkt. 15c, 1 lb. 40c, 5 lbs. $1.75, 10 lbs. $3.50, 100 lbs. $30.00.

POLE LIMA BEANS

CULTURE—Plant about 4 to 5 beans to the hill after the ground is warm, about 4 feet apart, and set poles. Use the hoe for cultivating.

Henderson's Leviathan. (85 days.) Matures four or five days earlier than ordinary Large Limas, producing large beans and well-filled pods. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Large White Pole Lima. (90 days.) Somewhat smaller than the Henderson Leviathan. Well known. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Small White Pole Lima. (82 days.) (Or Southern Butter Bean). It is rather small size, but bears enormously. Much better in this section than the large limas. Great many grow them to put away for winter use. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Yopp's White Pole Lima. (84 days.) This variety leads all other small white limas for either home garden or market. The beans are about twice the size of the small pole Lima, very tender, buttery flavor. Begins setting of pods from the first blooms and is an immensely heavy bearer from early to late. Excellent for either green or dry winter use. Especially adapted for the south. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

King of the Garden Pole Lima. (85 days.) The pods are long and contain 4 or 5 large White Beans of excellent quality, medium early, very productive. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Speckled or Calico Pole Lima—A very prolific bearer and of excellent quality for table use, only some object to it on account of the color. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Bean Diseases. For rust and blight, spray beans with Bordeaux Mixture when in third leaf, and thereafter at intervals of 10 to 14 days.

IF YOU WANT THE BEST SEED, SOW YOPP'S CHIEF BRAND FIELD SEED. THEY ARE THE BEST SEED GROWN.
CHOICE GARDEN BEETS

CULTURE—The best soil suited for Beet Culture is a deep, rich, sandy loam, which should be loose and light. If wanted very early, sow in hot beds and transplant, cutting off the outer leaves. For general crop, sow as early as ground can be worked in drills a foot to 18 inches apart and 1 inch deep. When plants are large enough, thin out to stand 3 to 4 inches apart in the row. Continue sowing for a succession until late in June. For winter use, the Turnip varieties may be sown in July or August, pulled after the first frost, the tops removed and the roots stored in the pits or cellar.

PRICES INCLUDE POSTAGE

EARLY WONDER

Early Wonder. (45 days.) Very early. The Beets are globe shape, very deep red, perfectly smooth with small tap root. The tops are unusually small. Very popular account of its attractive appearance, uniform size, shape and color. It is very crisp and tender, and much in demand by shippers. Pkt. 10c, oz. 15c, ¼ lb. 40c, lb. $1.25.

Detroit Dark Red. (50 days.) A splendid turnip beet with very small upright tops, maturing early. Makes nice, round, fine-shaped roots. Is one of the finest of all for early market or home use, and will be found one of the best of all for forcing in hot beds. Pkt. 10c, oz. 15c, ¼ lb. 35c, lb. 90c.

IMPROVED BLOOD TURNIP BEET

original, that it is now an entirely distinct variety. It has a large, globe-shaped root, is smooth, of a deep blood color, and is of the finest quality. Pkt. 10c, oz. 15c, ¼ lb. 35c, 1 lb. $1.00.

Early Eclipse. (42 days.) One of the best table beets almost as early as the Egyptian and much superior in quality. Has small tops and is smooth, fine-grained and tender. Color bright red, sometimes with lighter zones. Pkt. 10c, oz. 15c, ¼ lb. 35c, 1 lb. 90c.

Improved Blood Turnip Beet. (45 days.) The Blood Turnip Beet has always been considered the standard for general use. This special strain is the result of careful growing and selection, extending over a number of years until we are now satisfied that there is no chance for further improvement—in short, that it is perfect in every desirable quality. Pkt. 10c, oz. 15c, ¼ lb. 35c, 1 lb. 90c.

CATTLE BEETS

Mangel Beets Are Most Valuable for Stock Feeding. There is No Better Paying Root Crop. They Keep Well, and as a Change of Food, Are Excellent. Five Pounds Will Sow An Acre.

Long Red. (110 days.) A large, long variety grown for stock feeding. It stands up well above the surface; color, light red; flesh light and rose colored. Pkt. 10c, ¼ lb. 25c, lb. 75c.

Golden Tankard. (90 days.) Shape cylindrical, color, deep, rich yellow, flesh yellow, circled with white, unequalled for feeding stock. Pkt. 10c, ¼ lb. 25c, lb. 75c.

Sugar Klein Wanzleben. (60 days.) Largest yielding and one of the best for sugar making. Pkt. 10c, ¼ lb. 25c, lb. 75c.
SELECT AMERICAN GROWN CABBAGE SEED

CULTURE
One ounce will make 1500 good plants; 6 ounces will set an acre. For early use sow in frames in December, January or February. For summer and early fall, sow out of doors in March. For late use sow in April, May or June according to time of maturity.

ALL OF THE PRICES QUOTED BELOW INCLUDE POSTAGE

FIRST EARLY CABBAGE

Early Jersey Wakefield. (70 days.) The standard first early cabbage for the market grower. Heads conical and medium size. Our strain of this is specially fine. Pkt. 10c, oz. 25c, ½ lb. 75c, lb. $2.50.

Copenhagen Market. (80 days.) A valuable new early cabbage from Denmark, producing large, ball-shaped head, which comes into market along with Charleston Wakefield. It is well-known that Denmark is a great cabbage and cauliflower country. Our seeds come direct from the originator. Produces fine, large heads, uniform in shape and size and very solid. Pkt. 10c, oz. 30c, ½ lb. $1.00, lb. $3.00.

Marion Market (Yellows Resistant). (80 days.) A wonderful fine early variety of Yellows Resistant, round head Cabbage, heads being almost identical as Copenhagen Market; so if you cannot grow Cabbage on account of the Yellows or Wilt as it is sometimes called, be sure and try the Marion Market. Pkt. 10c, oz. 50c, ½ lb. $1.75, lb. $6.00.

Golden Acre. (70 days.) A new selection of the Copenhagen type; earliest of the round headed cabbages, maturing with Jersey Wakefield. Heads of medium size, round and hard, with few outer leaves. Pkt. 10c, oz. 50c, ½ lb. $2.00, lb. $6.00.

Large or Charleston Wakefield. (80 days.) The principle sort now planted by growers for early market, about a week later than Jersey Wakefield, but making much larger heads. Pkt. 10c, oz. 25c, ½ lb. 75c, 1 lb. $2.50.

CABBAGE—Summer

Early Flat Dutch. (100 days.) An old variety, but still popular. It succeeds anywhere, but seems especially suited to the South, because of its marked heat-resisting qualities. Pkt. 10c, oz. 25c, ½ lb. 75c, lb. $2.50.

ALL HEAD EARLY

All Head Early. (100 days.) The largest heading of the second early sorts, of excellent quality. The deep, flat heads are remarkably solid and very uniform in size. Pkt. 10c, oz. 25c, ½ lb. 75c, lb. $2.50.

Early Summer. (100 days.) This is a very valuable variety, not only for the market gardener, but also the private grower. Pkt. 10c, oz. 25c, ½ lb. 75c, lb. $2.50.

Succession. (100 days.) This variety, which originated on Long Island we regard as valuable an acquisition as the famous Early Summer. Pkt. 10c, oz. 25c, ½ lb. 75c, lb. $2.50.

Wisconsin All Seasons. (Yellows Resistant.) This cabbage after extensive field tests has proven to be resistant against the disease known as "Yellows." In other respects same as regular All Season. A favorite for kraut making. Pkt. 10c, oz. 50c, ½ lb. $1.75, lb. $6.00.
CABBAGE—Continued

PREMIUM LATE FLAT DUTCH LATE CABBAGE

Premium Late Flat Dutch. (120 days.) This standard variety matures a little earlier than many of the late sorts, is of low growth, with large head, broad and flat. A sure crop producer. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

Late Drumhead. (120 days.) A sure heading sort, which in good rich soil, will grow to an enormous size, and on poorer soils will give good sized heads which are very compact, solid and of excellent flavor. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

Surehead. (115 days.) A cabbage of the general Flat Dutch type with the same large deep, somewhat flattened head and the same fine qualities, but is of better texture and has less spread of leaves. It is a late sort, uniform in growth, with firm, hard heads. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

CHINESE CABBAGE

Chinese Cabbage can be served as a salad like Lettuce, or when cut makes a delicious slaw; boiled it is even more palatable than ordinary cabbage. Sow seed in late July or August.

Wong Bok. This variety has rather short broad heads, tightly folded leaves, blanches well, somewhat earlier than Pe-Tsai. Will make a head when others fail. Pkt. 10c, oz. 25c, ¼ lb. 80c, lb. $3.00.

Pe-Tsai. The best known variety. Has large leaves, light green color, pure white tender stalks. The ribs are juicy and agreeably pungent. Pkt. 10c, oz. 25c, ¼ lb. 80c, lb. $3.00.

OUR FROST-PROOF PLANTS

Will Mature Two or Three Weeks Earlier Than Your Home Grown Plants and Double Your Profits

The roots grow from the time they are planted, and just as soon as spring weather starts, the established root growth assimilates the fertilizer in the soil, the plants grow very fast, maturing two or three weeks earlier than you can mature them from hot bed and cold frame plants. You know what the difference in profit will be if your crop is matured and marketed before the general crop from home grown plants is matured.

HOME GROWN CABBAGE PLANTS. Not Frost Proof—Early Varieties. 35c per 100, postage included.

NOTICE—When ordering cabbage plants be sure to state whether you want Frost-Proof or Home Grown Plants; also if by parcel post or express.

FROST-PROOF CAULIFLOWER PLANTS. Postage charges prepaid. 100 to 400 at 90c per 100; 500 for $3.75; 1,000 or more at $6.00 per 1000.

BERMUDA AND CRYSTAL WAX ONION PLANTS

Onion Plants are taking the place of dry sets to a great extent now as the plants grow better shaped and seldom run to seed while Onions from sets run to seed a great deal. We recommend them particularly for home gardens. The Onion Plants are practically as hardy as Frost Proof Cabbage Plants, standing light freezes without being killed. Write for prices.
CARROTS

All Prices Quoted Below Include Postage

CULTURE—While a sandy loam is the best soil for the Carrot, any good land, if thoroughly and deeply
worked, will produce satisfactory crops. When possible to do so, it is advisable to sow as early in the spring
as the ground is fit to work. For field culture prepare the ground thoroughly and sow in drills 18 to 20 inches
apart, using 2 to 3 lbs. of seed to the acre. Cover 1-2 to 1 inch deep and see to it that the soil is pressed firmly
above the seed. Thin the smaller table sort to 5 or 8 to the foot and the field varieties 4 to 6 inches apart in
the row.

Danver's Half Long. (65 days.) A rich orange red
variety, very smooth and handsome, producing very
large crops. It is an excellent market variety. Tops
are of medium size and coarsely divided. Roots taper
to a blunt point. Flesh is sweet, crisp and tender.
Will produce more bulk to the acre than the largest
field varieties. Pkt. 10c, ¼ lb. 35c, 1 lb. $1.00.

Improved Long Orange. (80 days.) The most pop¬
ular main-crop sort in cultivation. The roots are
long and tapering, and of a deep orange color and
free from side roots. One of the best winter sorts
and is largely grown for table, market and stock.
Pkt. 10c, ¼ lb. 35c, 1 lb. $1.00.

DANVER'S CARROTS

Chantenay. (65 days.) An excellent half long, medium early variety. One of the best in
quality and productiveness for the home or market gardener. Roots are thick, four and a half
to five inches long, tapering slightly, smooth, deep golden orange in color. Pkt. 10c,
½ lb. 35c, 1 lb. $1.00.

CELERY

CULTURE—Sow in February, March or beginning of April in rows in fine, rich soil. Keep the seed bed well
watered, as celery germinates very slowly. Transplant from June to August. Celery does best in a moist,
mucky soil and in situations where plenty of water is abundant in the soil. One ounce sows about 100 feet and
produces about 8,000 good plants. Prices include postage.

Improved White Plume. (120 days.) The favorite sort with most gardeners on account of
its earliness and requiring very little earthing up. It blanches very easily, is of fine, attractive
appearance. Pkt. 10c, oz. 35c, ¼ lb. 90c.

Golden Self Blanching. (French Grown).
This is the best self-blanching sort. It ac¬
quires a handsome, golden color without having
to be hilled up, which makes it a valuable mar¬
ter sort. Pkt. 10c, oz. 75c, ¼ lb. $2.50.

Winter Queen. This is the best keeper of
all late sorts; very solid and crisp. This va¬
riety is unsurpassed for market garden. Pkt.
10c, oz. 35c, ¼ lb. 90c.

Easy Blanching. A new variety of great
merit, dwarf and compact with light green
foliage. The stalks are thick and solid and of
large extra fine quality. Pkt. 10c, oz. 35c, ¼
lb. $1.00.

KOHL-RABI

Cultivation same as for cabbage, taking care
to set plants no deeper than they stood in the
seed bed and in hoeing, not to heap too much
dirt about them. Keep weeds down and when
the thickened stems above ground are 2 to 3
inches in diameter should be used at once, as
they toughen with age.

Extra Early White Vienna. (60 days.) Pkt.
10c, oz. 25c, ¼ lb. 75c.

CHANTENAY CARROTS

GOLDEN SELF-BLANCHING CELERY
SWEET CORN

Early Minnesota. (65 days). Very popular standard early sort. Ears about 8 inches long. Usually 2 ears to stalk. Kernels broad, sweet and of good quality. Pkt. 15c, 1 lb. 20c, 10 lbs. $1.80.

Golden Bantam. (65 days.) A very early sugar corn, dwarf in growth. Ears 5 to 7 inches in length; 2 to 3 fine ears to the stalk. Color of grain is creamy yellow, very sweet and tender and fine flavor. Pkt. 15c, 1 lb. 20c, 10 lbs. $1.80.

Country Gentleman. (80 days.) This is a favorite second early or main crop variety with all private gardeners for its tenderness, delicacy, small, deep grains, and sweetness. The ears are of fair size, frequently 3 to 4 to a stalk. Pkt. 15c, 1 lb. 20c, 10 lbs. $1.80.

Stowell's Evergreen. (85 days.) Although a late variety, this has long been a favorite. It makes good sized ears, has very deep grains, and will remain in the green state longer than any other sort. Pkt. 15c, 1 lb. 20c, 10 lbs. $1.80.

Late Mammoth Sugar. (90 days). This is the latest but largest of all the sugar corns. The ears grow to an immense size and are of fine quality and flavor. Pkt. 15c, 1 lb. 20c, 10 lbs. $1.80.

EARLY, But Not Sweet

Adams' Extra Early. (52 days). The earliest kind, but ears small and not as desirable as Adams' early, which follows this variety closely in maturity. Pkt. 10c, 1 lb. 15c, 10 lbs. $1.25.

Adams' Early. (60 days). This is almost exclusively planted for the first roasting ears by the market gardeners. The ears are of good size, but otherwise for the table only same as common corn. Pkt. 10c, 1 lb. 15c, 10 lbs. $1.25.

Paducah Market Corn. (70 days). White variety about a week later than Large Adams; it comes in between Large Adams and White Pearl; well filled, large ears. Recommended highly for family use, and used largely by market gardeners here. Pkt. 10c, 1 lb. 15c, 10 lbs. $1.00, bu. $3.00.

MULCH PAPER—For Increasing Crop Yields

Straw, leaves, manure, etc. have often been used as mulch for garden crops. We can now offer you Mulch Paper which is inexpensive to use. It is very tough and is used on the soil surface. Seeds are planted, or plants set in holes punched in the paper. Or the paper may be used between the rows. It greatly increases soil warmth, almost entirely eliminates cultivation and is an essential element towards retaining soil moisture.

Mulch Paper has been used with wonderful success, greatly increasing crop production, also producing earlier crops on the following: Cucumbers, Melons, Cabbage, Lettuce, Beans, Peas, Celery, Peppers and Tomatoes. This paper comes in two qualities. The heavy, which is usually used on plants that you would want to remain more than one season, contains 150 lineal yards; light weight which is used on one season crops contains 300 lineal yards to the roll. Price, 18-inch roll $3.50 each, 36-inch roll $7.00 each, F. O. B. Paducah.
EXTRA SELECTED CUCUMBERS

CULTURE—For very early field crop plant in hot beds, in pots or small paper boxes, or in pieces of sod, grass side down so that they can be readily transplanted, or settled warm, about the end of April or during May, previously prepared by mixing a shovel of well-rotted main field crop plant in May and put about ten seeds out to 1. For late picking, plant in June or July.

1 ounce is sufficient for 50 hills. 1 pound to the acre. Ready for the table in from 55 to 75 days from planting.

Insect Remedies. For spotted and striped beetles, the best remedy is Tobacco Dust sprinkled liberally on the vines and hills while the dew is on.

Prices Include Postage

Arlington White Spine. (70 days.) A selection from the White Spine, being more pointed at each end. The young fruits are usually crisp and tender, of dark green color. Pkt. 10c, 1oz. 15c, ¼ lb. 40c, 1 lb. $1.25.

West India Gherkin. A small, burr-shaped variety. Pkt. 10c.

Always Green. (70 days.) Color beautiful dark green which is retained longer than any variety we know of. Fruit 7 to 8 inches long, vigorous grower and good yielder. Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. $1.25.

Improved Long Green. (70 days.) Our carefully selected strain of this old-time popular garden favorite may be depended upon to produce true dark green fruits, 10 to 12 inches in length, and of the finest quality. When young, the cucumbers are in great demand for pickles; in fact, it is the standard sort for this purpose. Pkt. 10c, 1 oz. 15c, ¼ lb. 40c, 1 lb. $1.25.

Early Cluster. (60 days.) Very early, fruit short chunky, small and borne in clusters in the center of the plant. Light green in color, very prolific. Pkt. 10c, oz. 15c, ¼ lb. 35c, 1 lb. $1.00.

YOPP SEED COMPANY, PADUCAH, KY.
YOPP SEED COMPANY, PADUCAH, KY.

EGG PLANT

CULTURE—Sow in hotbed very early in the spring and transplant to very rich warm ground, setting them 2 to 3 feet apart. Hoe frequently and hill up gradually until they blossom. Egg Plant seed will not germinate freely without a strong, uniform heat, and if the plants are allowed to get the least chilled they seldom recover from the shock.

Improved New York Spineless. (130 days.) This is the standard variety everywhere. The eggs come early, are of large size, regular oval shape, and a fine deep purple in color. Pkt. 10c, oz. 40c, ¼ lb. $1.25.

Black Beauty. (125 days.) This variety is the earliest kind. Pkt. 10c, oz. 40c, ¼ lb. $1.25.

COLLARDS

Of particular value in the South. The Collard forms a mass of leaves on a tall stem. Improved in flavor by frost.

CULTURE—Sow like cabbage. Transplant when a few weeks old. Set a foot apart in rows. Cultivate frequently. Sow seed in June, July and August. One ounce of seed will grow 4,000 plants.

Georgia Southern. Blue stem. Pkt. 10c, ¼ lb. 35c, 1 lb. $1.00.

Atlacide Non Poisonous Weed Killer Duster exterminates all undesirable vegetation, without danger of poisoning humans or animals. Simply shake powder from can on the weeds and grasses to be killed, Especially recommended for obtaining weed-free driveways, paths, tennis courts and gutters.

1-lb. DUSTER........50c Each (kills 100 sq. feet of weeds)
3½-lb. DUSTER...$1.50 Each

WATER CRESS

Cress (Water). A hardy plant which can be grown in moist soil or along the edge of shallow running streams. Pkt. 10c, oz. 50c.

GOURDS

Dipper. Capacity varies from a pint to a quart, with handles 6 to 12 inches long. Pkt. 10c.

Fine Mixed. A collection of the most ornamental. Pkt. 10c.

Japanese Nest Egg. These exactly resemble the eggs of hens, making a capital nest egg. Pkt. 10c.

Calabash or Pipe Gourd. Pkt. 10c.

EARLY SNOWBALL CAULIFLOWER

CAULIFLOWER

CULTURE—Cauliflower succeeds best when planted in hot beds during January or February and brought to maturity before the summer heat sets in. If properly hardened off, the plants are seldom injured if planted outside as early as the ground can be worked. Set them out in the richest soil available. They should stand two and a half feet apart each way. Keep them well hoed and bring the earth gradually up to the stems, watering freely in dry weather and protecting them from direct sun heat, especially when they begin to head.

Early Six Weeks. Next to Snowball, it is the surest to head. Pkt. 25c, oz. $2.00.

Early Snowball. An improved extra early strain of dwarf, compact growth. Is highly esteemed by market gardeners for its earliness and reliability as a sure header. It grows on a robust stem and produces magnificent white heads. Although one of the best for forcing under glass and cultivated principally for an early crop, it produces equally well for late planting. Pkt. 25c, oz. $2.50.
LETTUCE

This should be in continuous supply in every private garden from early spring until late fall, and sowings should be made accordingly, using Black Seeded Simpson for earliest crop, followed with Grand Rapids, May King, Big Boston and Improved Hanson. Then in July, August and September, sow Hanson for late crop.

One ounce sows 300 feet of drill; 3 pounds to one acre. One ounce produces 2,500 plants. An acre set in plants requires about 50,000 set 8x15 inches.

All Prices Quoted Below Include Postage

CULTURE—For winter forcing, make sowings from September to February. Sow the curled varieties about every four weeks the Head or Cabbage sorts about 6 weeks apart. As one crop is cut out another can be planted. For early spring crop sow under glass in January or February and transplant in the spring. For succession sow at intervals of three or four weeks until end of April. For fall planting sow the hardy varieties in September and transplant, when large enough, to cold frames 9 inches apart.

CURLED OR LOOSE HEAD VARIETIES

Yopp's Favorite Curled. (45 days.) A large clustering non-heading variety. Light golden leaves not as curled as Grand Rapids. The earliest variety of curled lettuce, fine flavor. Pkt. 10c, 1/4 lb. 35c, 1 lb. $1.25.

Early Curled Simpson. (40 days.) The standard cutting or loosehead variety. It is earlier than any of the heading kinds. Used extensively for sowing in cold frames and is also largely grown in the open ground, especially in small home gardens. It forms a close, compact mass of curled yellow green leaves. Pkt. 10c, 1/4 lb. 35c, 1 lb. $1.25.

BLACK SEEDED SIMPSON LETTUCE

Black Seeded Simpson. (40 days.) A very popular sort with market gardeners. Forms a large loose head; has nearly white curly leaves; thin, exceedingly tender and of good quality. Splendid for growing under glass and early planting outside. Oz. 10c, 1/4 lb. 35c, 1 lb. $1.25.

PULVERIZED SHEEP MANURE

Every season we have a large demand for Pulverized Sheep Manure. This has been treated for the purpose of destroying all the weeds in it. We especially recommend it for dressing lawns, golf courses and small gardens. It also makes an excellent fertilizer for soaking in water and using the liquid for house plants. It comes in packages nicely packed and the odor is not at all objectionable. It comes ready for use. 5 lbs. 30c, 10 lbs. 50c, 25 lbs. 75c, 100 lbs. $2.25.

When you want the best field seed grown,
Order "YOPP'S CHIEF BRAND."
"Always Best Seed Grown."
**HEADING OR CABBAGE VARIETIES**

Big Boston. (50 days.) This variety is identical in color, shape and general appearance with the famous Boston Market Lettuce, but is double the size. It is about one week later in maturing, but its solidity and greater size of head will make it a most valuable sort. A most desirable variety for forcing in cold frames or for open ground planting. Pkt. 10c, ¼ lb. 35c, 1 lb. $1.25.

Improved Hanson. (55 days.) One of the best of the summer varieties. Color, light green with crimped edges; heads extremely large, solid and fine appearance, hence popular for market. Quality a little coarse, but on account of its reliable bearing is one of the best for summer. Pkt. 10c, ¼ lb. 35c, 1 lb. $1.25.

New York or Wonderful (Los Angeles Market.) A very large cabbage-head late variety of lettuce. Heads are globular, very large and well blanched. Leaves broad, fairly blistered, crumpled. Color dark green. This lettuce is now being shipped all over the country and known by produce dealers as Iceberg. Pkt. 10c, oz. 20c, ¼ lb. 75c, 1 lb. $2.50.

All Seasons. (55 days.) One of the best of all head lettuces, standing the hot sun better than any other sort. It is slow to seed. Handsome; good sized. Its color is light green. Pkt. 10c, ¼ lb. 35c, 1 lb. $1.25.

Yopp’s “Chief Brand” Seeds are of high germination and the cleanest seed grown and are used by all farmers in this section of the country. Write for prices before buying elsewhere.

**PAPER PLANT POTS**

With these you can start your plants in the house or under glass and transplant to the open when danger of frost is over without disturbing the root growth of the plants.

Packed 250 in box, per box $1.50. Postage extra, 25c.
Write for prices on larger quantities.
OKRA

CULTURE—Sow in May, as soon as the ground has become warm, in drills 3 feet apart, covering the seed one inch. Thin out the plants until they stand a foot apart. Give rich soil and good cultivation. Gather the pods while young and tender.

White Velvet. (60 days.) White Variety, dwarf with round, smooth pods, free from ridges and seams, and not prickly to the touch. Very prolific and early. Pkt. 10c, 1/4 lb. 20c, 1 lb. 50c.

Dwarf Green. (50 days.) The best of the dwarf, long, green-pod varieties. It is very productive and the pods are tender and of the finest quality. Pkt. 10c, 1/4 lb. 20c, lb. 50c.

Block's Favorite. (50 days.) The plants make a dwarf and stocky growth. Matures early and yields a tremendous crop of pods. They are fiberless while young. Pods very slim, do not get hard and of intense green color. Pkt. 10c, 1/4 lb. 20c, 1 lb. 60c.

MUSTARD

Siberian Kale

Siberian. (60 days.) Pkt. 10c, oz. 15c, 1/4 lb. 25c, 1 lb. 75c.

Dwarf Scotch Green. (55 days.) Pkt. 10c, oz. 15c, 1/4 lb. 35c, 1 lb. $1.00.

Blue Scotch. (55 days.) Pkt. 10c, oz. 15c, 1/4 lb. 35c, 1 lb. $1.00.

Mushroom Spawn. 1 brick will spawn about 10 square feet. Mushroom beds may be made in dry warm cellar or in any building free of frost. The spawn should be broken in pieces about 2 inches square placing them 6 inches apart in the bed, then cover with 2 inches of rich soil. We furnish complete cultural instructions with each order. 1 Brick 35c, 3 Bricks for $1.00. Postage prepaid.

GARLIC

We frequently receive orders for garlic seed, but we can only supply bulbs. 1/4 lb. 15c, 1 lb. 40c.

LEEK

One ounce will sow about 100 feet of drill. Large Flag. Hardy and productive. The standard variety. Pkt. 10c, oz. 25c.

GIANT SOUTHERN CURLED

Florida Broadleaf. Leaf smoother and broader than Chinese. Oz. 10c, 1/4 lb. 25c, lb. 75c.

Giant Southern Curled. This variety is a great favorite in the South for garnishing. Very large dark green leaves, the edges of which are finely curled. Oz. 10c, 1/4 lb. 20c, 1 lb. 50c.

Fordhook Fancy. This new variety originated in the South, and is one of the most desirable mustards in cultivation. The leaves are exquisitely crimped, ruffled and frilled and make an exquisite table garnishing. Oz. 10c, 1/4 lb. 20c, 1 lb. 50c.

Chinese Broadleaf. The leaves are twice the size of the ordinary White Mustard while the flavor is sweet and pungent. Oz. 10c, 1/4 lb. 20c, 1 lb. 50c.

HORSE RADISH

(Malener Kren)

Horse Radish produces no seed, but is grown from pieces of the root; per 100 $1.25, 1,000 for $10.00.
MUSKMELONS OR CANTALOUPE

CULTURE—Plant as soon as ground has become warm and dry, in hills 5 or 6 feet apart each way. They do best in light, warm, rich soil. Before sowing seed, mix a few shovelfuls of well-rotted manure in each hill, and plant in each 12 or 15 seeds. After all danger from insects has passed, thin out to 3 or 4 plants per hill.

Germaco

Hotkaps
New Method of Plant Protection

Prices: 1 roll containing 1000 Hotkaps weighing 20 lbs. $11.50. 5 rolls, per roll $11.00.

Hotkap Setter $2.50. Postage or express extra. See Page 30.

Hales Best. (70 days.) A new variety of the Rocky Ford type Muskmelon. This is a leading variety with the shippers of the Imperial Valley in California and remarkably early Melon, Salmon Flesh, exceptionally thick, very small seed cavity. Hales best is the finest Muskmelon of this type, largest size. Pkt. 10c, oz. 15c, ¼ lb. 50c, 1 lb. $1.50.

Gold Lined Rocky Ford. (75 days.) An improved Rocky Ford Melon more closely netted and slight orange tinge next to seed cavity. Green flesh, of medium size. Thick flesh with small seed cavity. Unsurpassed for flavor. Pkt. 10c, oz. 15c, ¼ lb. 50c, 1 lb. $1.50.

Large Hackensack. (85 days.) Fruit large, round, flattened at the ends; deeply and irregularly ribbed, coarsely and heavily netted. Flesh green, thick and of fine quality. Pkt. 10c, ¼ lb. 40c, 1 lb. $1.25.

Pollock’s No. 10-25. (80 days.) Improved Rocky Ford with salmon flesh. Unusually small seed cavity, well netted. Pkt. 10c, ¼ lb. 40c, 1 lb. $1.25.

Netted Rock. (75 days.) A famous melon on Paducah market. Slightly larger than Rocky Ford, a better shipping melon. Very thick, solid, green flesh. Fine grained and sweet. Pkt. 10c, oz. 15c, ¼ lb. 60c, 1 lb. $2.00.

Champion Market. (80 days.) Fruit large round or slightly oval, slightly ribbed and covered with dense netting. Flesh green, of medium texture, very thick and sweet. Pkt. 10c, ¼ lb. 40c, 1 lb. $1.25.

Rocky Ford. (75 days.) This famous melon is well-known everywhere, and has been the standard shipping variety. Pkt. 10c, ¼ lb. 40c, 1 lb. $1.00.

Osage. (75 days.) This melon is one of the best for family use. Its flesh is a salmon color, and has a remarkably sweet and spicy flavor, extremely thick and delicious to the rind. Pkt. 10c, ¼ lb. 50c, 1 lb. $1.50.

Tip Top. (85 days.) For splendid eating qualities this melon has certainly been rightly named, for it is one of the most deliciously flavored melons in existence. It grows to a large size and has a thick, orange flesh. Pkt. 10c, ¼ lb. 50c, 1 lb. $1.50.

Banana. Long and slender, growing the shape of a banana; flesh deep salmon color; fair quality; grows from 18 to 24 inches long. Pkt. 10c, ¼ lb. 50c, 1 lb. $1.50.

EXTRA EARLY HACKENSACK

Extra Early Hackensack. (70 days.) An early selection from the old Hackensack, maturing from a week to ten days earlier; somewhat smaller and not so deeply ribbed, but otherwise similar to the old type. Pkt. 10c, ¼ lb. 40c, 1 lb. $1.25.
WATERMELON—Selected Seed

CULTURE—Watermelons do best in light, well-drained soils. To get good melons, it is essential that the plants have a good start, therefore the seed should be put in just as soon as the weather is really warm and settled. Prepare hills about 8 feet apart, working into the soil an abundance of well-rotted manure and in these plant the seed, thinning out to 2 or 3 plants in each hill.

One ounce plants 30 hills; 3 lbs. to the acre. Plant early in May, or, for late use, in June.

All Prices Quoted Below Include Postage

HALBERT HONEY

Wonder. (90 days.) It possesses a wonderful flavor, the color is dark green, shape oblong and most attractive, tough rind, good shipping melon. Price, Pkt. 10c, oz. 15c, 1/4 lb. 50c, 1 lb. $1.50.

Stone Mountain. (90 days.) Sometimes known as Lipsey or Dixie Belle. Largest of all, almost round, has very few seeds and the most delicious melon you ever tasted. Price, Pkt. 10c, oz. 15c, 1/4 lb. 60c, 1 lb. $2.00.

Halbert Honey. (90 days.) Equal in flavor and appearance to the Kleckley Sweet, but more regular in form and much more productive. Average length, 18 to 20 inches. Color of rind a clear, glossy deep green. Flesh a beautiful crimson. Pkt. 10c, 1/4 lb. 40c, 1 lb. $1.25.

New Excel. (90 days.) Very large and good shipping melon, fruit long, dark green in color with an irregular faint striping, covered with fine veining of darker shade. Rind hard and tough. Mid-season, flesh red, crisp and fine quality. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.

Irish Gray. (90 days.) Long, thick, uniform; rind yellowish gray, interwoven with thread-like veins, flesh sparkling bright red, sweet; one of the best shippers; seeds white; average size 30 lbs. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.

Harris’ Earliest. (80 days.) An early melon of excellent quality; slightly oval with broad light and dark stripes. Flesh bright red and tender. Seed black. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.

Florida Favorite (85 days.) A dark and light green mottled melon, of beautiful appearance; oblong in shape. The flesh is bright crimson, crisp and deliciously sweet. Early. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.

Perfection. (85 days.) An improved Kleckley Sweet. This wonderful new watermelon has all the good qualities of the Kleckley Sweet, but is very much larger in size, often weighing up to 50 pounds. Rind glossy, dark green, thin but unusually tough, so is a fine melon to ship. Flesh dark red, very sweet, free from fiber. Pkt. 10c, oz. 20c, 1/4 lb. 40c, 1 lb. $1.25.

Georgia Rattlesnake. (85 days.) Long gray, with light green stripes; excellent shipper, vines vigorous and productive; flesh red and sweet. Also known as striped Gypsy. Average weight 25 lbs. Pkt. 10c, oz. 30c, 1 lb. $1.00.

Kleckley Sweet. (85 days.) No other melon has ever attained such popularity for home use and nearby markets; eating quality leaves nothing to be desired; melons medium in size. Oblong; dark green skin, thin rind. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.

Tom Watson. (90 days.) Attains a larger size than any of the long green melons, frequently growing to 50 or 60 lbs. The rind is thin but tough; flesh deep red. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.

Cream Flesheed. The best of the cream or yellow flesheed variety. Pkt. 10c, 1/4 lb. 30c, 1 lb. $1.00.
CHOICE ONION SEED

Sow in March or April outdoors. For large onions, at the rate of 5 or 6 lbs. per acre. For sets, 40 to 60 lbs. per acre. For Pickle Onions, 1 oz. sows 150 feet. 15 lbs. per acre.

CULTURE—For large, fancy onions: Sow in January or February in hot beds or trays. As soon as the weather opens and the sets are the size of a goose quill, transplant in rows 12 inches apart and 4 to 6 inches between the onions. For sets: Sow in February or March in rows 10 to 12 inches apart, in smooth, clean well-prepared land. Keep free of all weeds and cultivate as often as necessary, depending on condition of growth to produce small sized sets.

SOUTHPORT RED GLOBE

Southport Red Globe. (130 days.) A fine, large, globe-shaped onion of mild flavor. It is a good keeper excellent for main crop. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

Sweet Spanish. A very large globe shaped light yellow Onion. As exceptinal fine shipper. Very mild and a good keeper. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

$1.00.

Ebenezer or Japanese Onion. A very fine round yellow onion. One of the best keepers. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

YELLOW GLOBE DANVERS

Yellow Globe Danvers. (115 days.) This is the most popular of all the yellow sorts. It is the kind most used by Chicago market gardeners. In all markets where a yellow sort is used, it takes the lead. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.00.

Yellow Bermuda. (70 days.) A flat shaped, light straw colored onion. Each year this onion has grown in popularity and many of the large growers of the South will plant no other kind. Pkt. 10c, oz. 40c, ¼ lb. $1.25, lb. $4.00.

Crystal Wax. (70 days.) Very desirable for family use. Flavor mild and pleasant. Skin silvery white.....Pkt. 10c. oz. 50c, ¼ lb. $1.50, lb. $5.00.

Mammoth Prizetaker. (90 days.) Grows to an immense size and for fall marketing is uneclled. Handsome bulbs of a rich yellow color and fine globe form. Pkt. 10c, oz. 25c, ¼ lb. 75c, lb. $2.50.

ONION SETS

THE EASIEST WAY TO GROW LARGE ONIONS.

Onion Sets are subject to market changes. We are glad to quote by letter at any time.

Onion Sets from Seed. These are the product of seed and are used for "Green Onions," or to produce large onions, which they do much quicker than can be grown from seed.

Yellow Bottom Sets. Market Prices.
Red Bottom Sets. Market Prices.
Ebenezer or Japanese Bottom Sets. Market Prices.

Onion Sets for Fall Planting.

Egyptian or Perennial Tree Onion Sets. Also called Winter Top Sets. Never form a large bulb. Especially for green onions for Spring and Fall. Very productive. Market Prices.

Potato Onion Sets. Sometimes called Hill Onion. Valuable for bunching or early crop of bulbs. Smallest sets make fine, large bulbs. Bulbs, when planted, multiply, each producing from 6 to 12 stalks for bunching. Sets, lb. 12½c, 10 lb. lots 10c lb. Postage extra.
CULTURE—Sow in hot beds in March, or in a warm sheltered border the last half of April, and when season is favorable, transplant to good, rich ground, setting them in rows 2 feet apart and 18 inches apart in the rows.

Prices Quoted Include Postage

Red Cherry. Small, round fruits. A very prolific variety. Pkt. 10c.

Long Red Cayenne. (110 days.) A strong, hot pepper, having long, slender, bright red pods about 4 inches long. Pkt. 10c, oz. 35c.

Harris' Earliest. This variety is distinctly dwarf, growing from 12 to 18 inches in height. Very productive, having thick flesh, fairly large pods. Plants are very uniform in growth. The earliest Bell Pepper type we know of. Pkt. 10c, oz. 40c.

California Wonder. (130 days.) A new variety resembling Chinese Giant in shape, but much thicker flesh. Fruits will average 4 inches in diameter at top, tapering slightly. Very prolific, color glossy dark green turning to crimson. Pods very heavy. Pkt. 10c, oz. $1.00, ¼ lb. $3.00.

Chinese Giant. (140 days.) The largest and finest mild red pepper grown. The plants are vigorous and stocky in growth, well branched and thickly set with enormous fruits. It ripens early and is immensely productive. Fruits are of thick and blocky form, and most brilliant, glossy scarlet. Pkt. 10c, oz. 50c.

Royal King. (130 days.) A beautiful pepper similar in shape to Bullnose but much larger and flesh thicker. It is exceptionally mild. Color of fruit green when young, bright glossy red color when matured. Pkt. 10c, oz. 40c.

Bell or Bullnose. (120 days.) Early, prolific and popular. Flesh thick but somewhat hot. Pepper is medium and bright red. Pkt. 10c, oz. 40c.

Pimento. Is very thick fleshed, heart-shaped, smooth, mild crimson variety; much used for salads. Pkt. 10c, oz. 40c.

Golden Queen. (120 days.) The largest of the sweet yellow peppers. Similar in size to Royal King, mild in flavor and golden yellow when ripe. Pkt. 10c, oz. 50c.

PARSLEY

CULTURE—Soak seed in water for a few hours and sow in rich soil early in spring in rows a foot apart and cover lightly. Parsley is slow to germinate and is sometimes 3 to 4 weeks in coming up. One ounce will sow 150 feet of drill.

Double Curled. The best and most improved strain. It is beautifully curled and crimped, and is the best for garnishing and flavoring. It makes an ornamental plant for edging walks. Pkt. 10c, oz. 15c, ¼ lb. 50c.

Plain. Leaves flat, deeply cut, but not curled; Pkt. 10c, oz. 15c, ¼ lb. 50c.

PARSNIP

CULTURE—A rich, sandy loam, deeply worked, is the best for parsnips. Sow in April in drills 1 inch apart, covering lightly. Parsnip seed is very slow in germinating, especially when the ground is dry. When the plants are 2 inches high, thin out to 4 or 5 inches apart. One ounce of seed will sow 200 feet of drill. Five or six pounds to the acre.

Parsnips remain in the ground all winter without protection and can be dug for use as required until they begin to run to seed in the spring. They are altogether a most desirable winter vegetable, and should be much more largely grown than at present.

Sugar Hollow Crown. (90 days.) This is an old standard variety. Smooth skin, tender and well flavored. It is good either for table use or stock. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c.

Improved Guernsey. (90 days.) An improved strain which has given general satisfaction. The roots do not grow so long as those of the Hollow Crown, but are of greater diameter and more easily gathered. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c.
NORTHERN-GROWN SEED PEAS

CULTURE—The extra early varieties should be sown as early in the spring as the ground can be worked. In this latitude they can frequently be planted in February. Continue sowing for a succession every two weeks until June, then stop until the last of August, when a good crop can be obtained by planting the extra early sorts for all use. In the home garden sow double rows 6 to 8 inches apart and 2 to 4 inches deep, with double rows 2 or 3 feet apart. Varieties growing 2 feet high or more should be supported with brush. The early kinds do best in a light, warm soil. Later varieties require a rich loam, including clay, and should be planted deeper than others.

Postage on Packets Free. For postage on pounds, see inside cover page.

EXTRA EARLY DWARF VARIETIES

Laxtonian. (60 Days.) A large podded dwarf variety; height 1½ feet, pods and vine dark green; pods about 3½ inches long, containing 6 to 8 large dark green peas. Excellent quality. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Little Marvel. (60 Days.) Height 14 inches. Foliage and pods very dark green. Pods about 3 inches long, containing six to eight very dark green peas of high quality. They are very productive; a fine variety for the market gardeners. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Hundred Fold. (60 Days.) A large podded dwarf variety on the order of Gradus, though more dwarf. Height 1½ feet. Pods and vine deep green. Pods 4 inches long, straight pointed, containing eight large, dark green peas. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

Laxton’s Superb. (60 Days.) Height 18 inches. A hardy semi-wrinkled, blue seeded, extra early pea. The pods are semi-broad, deep green and of good quality. Desirable for market gardeners first crop. The seed being practically smooth, can be planted out earlier than the wrinkled sorts. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.20.

SECOND EARLY VARIETIES

EXTRA EARLY

Extra Early Varieties Not Dwarf

Extra Early. (50 Days.) (Two and a half ft.) Is not only the earliest but the very best of the smooth, white, extra earlies. It matures in from 40 to 45 days after germination, and the full, round, dark green pods are produced in wonderful profusion. Practically all the pods can be gathered at one or two pickings. Pkt. 15c, 1 lb. 25c, 5 lbs. $1.00, 10 lbs. $1.80.

First and Best. (50 Days). Early, productive, and hardy, with strong, vigorous vine, which is light in color and uniform in growth, 2½ feet in height. Pkt. 15c, 1 lb. 25c, 5 lbs. $1.00, 10 lbs. $1.80.

Alaska. (50 Days). (2½ ft.). A well known popular early variety. Pkt. 15c, 1 lb. 25c, 5 lb. $1.00, 10 lbs. $1.80.

WRITE FOR PRICES ON LARGER QUANTITIES
PEAS—GARDEN SORTS—Continued
MAIN CROP VARIETIES

Telephone. (75 Days). A grand wrinkled pea, undoubtedly the best of the tall growing sorts. Vines reach a height of 4 ft. It is robust in habit and a wonderful producer. The pods are of the largest size, remarkably handsome in appearance. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.00.

Everbearing. (70 days). The vines are very stout, about 2½ feet in height, bearing at the top 6 to 10 pods. If these are picked as they mature, and the season and soil are favorable, the plant will throw out branches bearing pods which will mature in succession, thus prolonging the season. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.00.

GRADUS OR PROSPERITY
(Early)

EARLY WRINKLED PEAS

Gradus or Prosperity. (60 days). Undoubtedly the best and earliest large podded wrinkled pea which has been introduced for many years. Market gardeners as well as private gardeners, speak well of Gradus. Height 3 feet. Pkt. 15c, 1 lb. 30c, 5 lbs. $1.25, 10 lbs. $2.00.

Thomas Laxton. (65 days.) An early wrinkled variety of great merit. Vine 2½ feet high, similar to that of Gradus, but darker in color, harder and more productive. The green peas are very large, fine colored and unsurpassed in quality. Pkt. 15c, 5 lbs. $1.25, 10 lbs. $2.00.

PILOT

Pilot. (65 days.) A popular market gardener's large podded, second early smooth pea, foliage medium green, large showy pods, very productive, containing 8 to 9 peas. Pkt. 15c, 1 lb. 25c, 5 lbs. $1.00, 10 lbs. $1.80.

Postage Extra on Peas

Pulverized Sheep Manure. A light sprinkle of sheep manure directly over the row prevents the ground from crusting, thus enabling the plant to come up quicker, also an excellent fertilizer. Nice clean packages. 5 lbs. 30c, 10 lbs. 50c, 25 lbs. 75c, 100 lbs. $2.25.
SEED POTATOES

CULTURE—A sandy loam, reasonably rich in organic matter is considered the very best soil for potatoes. However, any soil that is light and easily worked and contains a good supply of plant food will grow potatoes successfully. It is not advisable to apply fresh manure just before the tubers are planted. Fresh manure, besides causing a number of diseases on the tuber, contains too large a supply of nitrogen, which produces too rank a growth at the expense of the tubers.

Certified Early Ohio. Favorite variety among gardeners everywhere and particularly well suited to light or loamy soil, but succeeds well anywhere. Tubers are oval, have few eyes, smooth white skin, slightly flushed with rose and of exceptional quality.

Early Ohio. Same as above only not certified.

Tennessee Sweet Potato. Medium sized, pear-shaped; slightly ribbed; color, cream white, sometimes lightly striped with green. Pkt. 10c, oz. 15c, ½ lb. 35c, 1 lb. $1.00.

Japanese Pie. A high quality pumpkin of Japanese origin. The flesh is very thick, of a rich salmon color, fine grained, dry and sweet; seed cavity small. Pkt. 10c, oz. 15c, ½ lb. 35c, 1 lb. $1.00.

Burbank. Of the late Northern sorts, this is more largely used than any other. It is of good size, oblong shape, and an excellent yielder. The flesh is white, and is very mealy, and of fine flavor.

Rural New Yorker. A valuable variety of large size, very smooth and a great cropper. In quality it is unexcelled. It is the best late keeper and is highly recommended. Their large, handsome appearance makes them more profitable than any other sort. Market prices will be quoted on all seed potatoes upon application.

SEED POTATO TREATMENT

Irish Potatoes: All Seed Potatoes should be treated to prevent any possible disease. It is a very simple and easy matter, and by doing this the crop can be increased considerably. Potatoes should be treated before cutting.

DIRECTIONS:
1. Solution, one ounce Corrosive Sublimate to seven and one-half gallons of water. Soak first lot in this solution for one and one-half hours and dry. Second lot, one and three-fourths hours, third lot for two hours and then discard solution.
2. For treating large quantities, use two pints Formaldehyde to each thirty gallons of water; heat to a temperature of 118 to 122 degrees F. and soak seed two minutes. Cover for one hour and dry.

Sweet Potatoes: Use one ounce of Corrosive Sublimate to seven and one-half gallons of water. Soak seed five to ten minutes and dry. Treat two lots and add one-eighth ounce of Corrosive Sublimate for each successive lot to be treated. After ten lots have been treated, make up a new solution.

SWEET POTATOES

Our seed is grown in this county and this market has a splendid reputation of having the finest and best sweet potatoes in this country. We can supply the following varieties in April: Florida Yams or Nancy Hall, and Porto Rico. We can furnish Nancy Hall or Florida Yam plants. Prices on application.

PUMPKIN SEED

CULTURE—Plant the seed as soon as the ground becomes warm, in hills 8 to 10 feet apart each way, or in fields of corn about every fourth hill. Plant at the same time as the corn.

One ounce plants 20 to 30 hills; 2 to 3 pounds per acre.

Large Yellow Field. A good stock variety, planted chiefly among corn; one of the largest and most attractive pumpkins grown. Pkt. 10c, ½ lb. 15c, 1 lb. 40c, 5 lbs. $1.50, 10 lbs. $2.50.

Mammoth. This is the very best genuine strain of the true mammoth pumpkin. Fruits grow to enormous size, sometimes reaching 2 feet or more in diameter, 50 to 100 pounds in weight. Pkt. 10c, oz. 15c, ½ lb. 50c, lb. $1.50.
SUPERIOR RADISH SEED

CULTURE—Radishes to be crisp and tender, must be grown quickly. This requires a light, rich and finely pulverized soil. Sow thinly in drills 10 inches apart and thin the plants to stand 2 inches apart so the bulbs will have ample room for development. When sown in frames they must have plenty of ventilation or they will grow all leaves and very small bulbs. Sow the winter varieties during July and August.

Prices Include Postage

One ounce sows 100 feet of drill; 10 to 12 pounds to the acre. For forcing, sow in January or February in frames. Outdoors from February to June. For late use, from July to September. Early sorts are ready for the table 21 to 30 days from sowing.

EXTRA EARLY TURNIP VARIETIES

Early Sparkler White Tipped. (22 days.) The outer skin is bright crimson color, with white tip; flesh pure white. Our strain of this variety is superior to most stocks offered, making a nice, globe-shaped, clean root, with no lateral roots. It has very small top and grows much quicker than the ordinary strain of White Tip Scarlet. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

Early White Turnip. (25 days.) A very handsome and popular early turnip-shaped white variety. Of quick growth; color pure white; fine for forcing or open. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

SCARLET TURNIP WHITE TIPPED RADISH

Scarlet Turnip, White Tipped. (22 days.) One of the most handsome of the turnip radishes and a great favorite in many large markets for early planting out-doors. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

Early Scarlet Turnip. (25 days.) A round, red turnip-shaped radish with a small top and of very quick growth. A very early variety, deserving general cultivation on account of its rich color and crisp, tender flesh. Very desirable for early out door planting as well as forcing. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

Crimson Giant. (28 days.) A variety extraordinary in that while growing to unusually large size, is always tender, crisp and mild flavor. Root turnip-shaped; color, beautiful crimson-carmine; fine crisp and tender. While very desirable as second forcing variety, we especially recommend for outdoor planting. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

Early White Box. (30 days.) A small, beautiful pure white sort of exceedingly quick growth, forming handsome, round white roots, of pearly white color. Has a small top and is excellent for family use as well as market. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

Feeny Dusters. Best Hand Duster on the market for Flower and Home gardens; handles Arsenate of Lead, Dry Bordeaux or any Dry Insecticide. Price $1.00 Postage extra, 10c.
White Icicle. (35 days.) This variety has rapidly become a favorite; in fact, there is nothing which has proven superior in its class. Produces beautiful long, white roots, extremely early, hence decidedly popular for forcing, and a splendid sort for light, deep soil for outdoors. Pkt. 10c, 1 lb. 30c, 1 lb. 90c.

Long Scarlet, Short Top. (35 days.) This variety is a standard and excellent sort, either for private gardeners or market. Roots grow half out of ground, are very uniform in shape, smooth and very bright red color. Continues crisp and tender until fully matured, when they are about 6 inches long. Pkt. 10c, ½ lb. 30c, 1 lb. 90c.

Cincinnati Market. (35 days.) Very similar to Long Scarlet, Short Top, but improved. Pkt. 10c, ¼ lb. 25c, 1 lb. 90c.

Long Cardinal, or Long Brightest Scarlet. (40 days.) Similar to Long Scarlet, but not quite so long and even brighter in color with white tips. The crisp, tender radishes grow quickly and are quite attractive for market. Pkt. 10c, ¼ lb. 30c, 1 lb. 90c.

Long White Lady Finger. (38 days.) Is a very handsome radish, a rapid grower and of excellent quality. Pkt. 10c, ½ lb. 30c, 1 lb. 90c.

Golden Globe. (35 days.) This variety is of quick growth, affording crisp and tender radishes even in the hottest climate. Root uniformly globe-shaped with skin golden yellow in color. Pkt. 10c, ½ lb. 30c, 1 lb. 90c.

White Strasburg. The most popular of all radishes for outside, second early, or main summer crop. It grows large size, does not get pithy unless very old. Of beautiful crystal white color; tender and sweet. Roots are tapering, about two inches thick and five inches long. Pkt. 10c, ½ lb. 30c, 1 lb. 90c.

White Strasburg. The most popular of all radishes for outside, second early, or main summer crop. It grows large size, does not get pithy unless very old. Of beautiful crystal white color; tender and sweet. Roots are tapering, about two inches thick and five inches long. Pkt. 10c, ½ lb. 30c, 1 lb. 90c.

White Chinese or Celestial. (50 days.) Root 6 to 8 inches long with beautiful white skin and flesh. The whitest and least pungent of Winter Radishes. Pkt. 10c, ½ lb. 35c, 1 lb. $1.00.

Long Black Spanish. (60 days.) One of the latest as well as the hardiest of radishes; an excellent sort for winter use. Pkt. 10c, oz. 15c, ¼ lb. 35c, 1 lb. $1.00.

FRUIT TREES

We can now furnish you with all kinds of nursery stock—Peach, Apple, Pear, Plum, Cherry, Grape Vines, Dewberry and Blackberry. Also ornamental and flowering shrubs. See page 34.

Manure! More Manure! You must have manure, and thanks to ADCO you can have quantities of it. You can turn every bit of vegetable refuse—cuttings, weeds, leaves, etc., from the garden, straw and cornstalks from the farm, into rich manure by the simple ADCO Process. Information free.

Price—25 lbs. $2.00, 100 lbs. $7.75
EARLY WHITE BUSH

CULTURE—The squash is a tender annual, and should not be planted until all danger from frost is past, and the ground is warm, settled and dry; as said from the tender nature of the plant, the seed is liable to rot in damp, cold weather. Plant in hills 5 to 6 feet for the bush varieties, such as White Bush Scallop, Yellow Summer Crookneck, etc., and in hills 6 to 8 feet apart for running varieties such as the Hubbards and other winter sorts; hills should be thoroughly manured. Slightly elevate hills and place 7 or 8 seeds in each, so as to have plenty for the bugs, finally leaving but 3 plants. Press seed down firmly before covering; cover early planted ones 1 inch and late ones 1 1-2 inches.

Prices Include Postage

Early White Scallop Bush, or Patty Pan Cymbling. (50 days.) For many years this has been extensively grown in the South for shipment to Northern and nearby markets, also for home use. It is early, of light cream color, very prolific, grows to nice size, and is an excellent shipper. Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. $1.25.

Yellow Summer Crookneck. (50 days.) One of the best of the summer squashes. It is of dwarf, bushy habit and very productive. The skin is yellow, flesh has greenish yellow color, is dry and most agreeable flavor. This is, in fact, the most highly esteemed of all summer varieties. Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. $1.25.

Yellow Bush Scallop. A very early flat scallop ed variety of largest size; skin deep orange, flesh pale yellow and well flavored. We have developed a strain of the yellow bush scallop which is fully as productive, but uniformly larger and flatter than the old stock and has a very small seed cavity. Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. $1.25.

Hubbard. (95 days.) A splendid keeping squash with orange-colored flesh, very dry, and of richest flavor. Pkt. 10c, oz. 15c, ¼ lb. 40c, lb. $1.50.

SPINACH

One ounce sows 100 feet of drill; 10 lbs. per acre in drill; 15 to 20 lbs. broadcast; ¼ pound is sufficient for a medium garden. Sow in February, March or April. For fall and early spring, sow in September or October.

CULTURE—Sow in drills 1 inch deep. 18 inches to 2 feet between the rows or it can be sown broadcast like kale. Requires but little or no cultivation.

King of Denmark. This spinach stands longer before seeding than any other sort; grows vigorously and rapidly, forming compact rosettes of broad, thick, slightly crumpled, dark green leaves. Pkt. 10c, ¼ lb. 20c, 1 lb. 40c.

Savoy or Bloomsdale. Very early and hardy, with leaves curled and wrinkled like a Savoy Cabbage. The best for fall sowing. Pkt. 10c, ¼ lb. 15c, 1 lb. 40c, 10 lbs. @ 35c lb, 100 lbs. @ 30c lb.

Round Thick Leaved. The best variety for spring seeding; makes thick, dark green, crumpled leaves of finest quality. Very slow in running to seed. Pkt. 10c, ¼ lb. 15c, 1 lb. 40c.

Long Standing. Fine for both fall and spring sowing. Leaves thick and fleshy; stands long without running to seed. Pkt. 10c, 1 lb. 40c.

RHUBARB

SEED. Pkt. 10c, oz. 15c, ¼ lb. 40c, 1 lb. $1.50.
ROOTS. By express, not prepaid, per dozen $1.50. By mail, prepaid, 25c, extra.

SALSIFY OR OYSTER PLANT

CULTURE—Sow in March or April in rich, light soil; rows 18 inches apart and thin to 4 to 6 inches in rows. Cultivate often. One ounce sows 100 feet, 5 lbs. per acre.

There is no vegetable more rich and delicious than the Oyster Plant or Salsify. Splendid for winter use and should be extensively grown.

Mammoth Sandwich Island. (90 days.) A great improvement over the old sort, growing double the size. Quality excellent. Pkt. 10c, oz. 20c, ¼ lb. 60c, 1 lb. $2.00.
SELECT TOMATO SEED

CULTURE—For early plants sow during February or March in shallow boxes of light, rich soil, placed in a sunny window, and when 2 inches high, transplant to other boxes. Or sow in hot beds in drills 6 inches apart and half inch deep and transplant when 2 inches high outside until all danger from frost is over. Then set in hills 4 feet apart each way. The best soil for tomatoes is very rich, sandy loam, but they will do well on any well-drained, well-manured land and even in poor soil will produce better than most crops. If stems of plants when planted out are very long they should be partly buried under ground. Water freely at time of transplanting and give constant and thorough cultivation. For late use, sow seed in open ground during May and early June, and transplant to permanent location as soon as large enough. These plants will provide fruits during fall months when earlier settings have become exhausted by continuous bearing during hot, dry weather.

1 ounce for 2,000 plants, 3 ounces sufficient for an acre.

Prices include postage.

EXTRA EARLY EARLIANA

Extra Early Earliana. (Red). (80 days.)

A new strain of the well-known Earliana Tomato grown in Northern New York, it being earlier and more smooth than the old Earliana. If you are looking for a good extra early tomato, you can't get anything better than this variety. Pkt. 10c, oz. 50c, ¼ lb. $1.75, ½ lb. $3.00, 1 lb. $5.00.

Chalk's Early Jewel. (95 days).

The largest, smoothest, finest flavored, early tomato in cultivation; it is a heavy cropper with fruit of large size. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

New Stone Tomato. (115 days.)

This is the most popular main crop variety in cultivation. This variety has obtained immense popularity with market gardeners, growers, canners and home growers everywhere. Its color is a desirable red. Its shape is perfectly smooth and thicker from stem to blossom end than most varieties. Pkt. 10c, oz. 25c, ¼ lb. 75c, 1 lb. $2.50.

Bonny Best. (90 days.)

This new variety is somewhat earlier than Chalk's Early Jewel. A vigorous grower, very prolific, with larger foliage than most tomatoes, which protects fruit from the hot sun. When ripening, each set ripens nearly all at once, and evenly, all over up to stem. It is a good, early, red skin variety. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

Dwarf Champion. (100 days).

A purplish red early variety which is very dwarf growing, and the vines so stiff and upright that they are self-supporting, even when laden with fruit. The branches are short, making a bushy plant growing about 2 feet high. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

Extra Select Beauty. (110 days.)

A decided favorite for either home market, or shipping purposes. The color is glossy-crimson, with a tinge of purple. It grows in clusters of 4 to 6 large fruits, retaining its large size late in the season. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

Ponderosa Tomato. (120 days.)

The finest tomato grown. Fruit ripens quite early and keeps on coming until very late; of immense size, solid, almost seedless and of delicious flavor. One of the best tomatoes for home use. Pkt. 10c, oz. 50c, ¼ lb. $1.75, 1 lb. $5.00.

Yellow Ponderosa. (115 days.)

Best of the large yellow sorts, resembling the Ponderosa in growth and shape, but a bright lemon color. Ripens evenly and is desirable for private use, forming a pretty contrast with the red sorts. Pkt. 10c, oz. 75c, ¼ lb. $2.50, 1 lb. $8.00.

June Pink. (90 days.)

One of the very earliest and most productive and best pink-fruited varieties in cultivation. The plants are of compact growth, produce more fruits for earliest picking and continues to bear in good quantities throughout the season. We especially recommend it for light, loamy, quick soils for earliest crops. The fruits are smooth, good size and quality. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.
TOMATOES—Continued

Wilt Resistant Tomatoes. Tomato wilt is a disease that causes the plant to gradually die about the time the first fruit is half grown; this disease is easily recognized by examining a cross section of a stem, as a plant with wilt has a brown to black ring surrounding the pith. If you have been disappointed in growing tomatoes because of this disease you will be interested in these hardy Wilt Resistant varieties.

Norton "Wilt Resistant." (115 days). So serious has become the loss of tomato crops from the disease known as "Tomato Wilt," that a few years ago the U. S. Department of Agriculture started the breeding of a number of Wilt Resistant varieties. Of these the Norton is the most popular all-purpose variety. Color and shape similar to Stone. Pkt. 10c, oz. 50c, ½ lb. $1.50, 1 lb. $5.00.

Marglobe. Wilt Resistant. (100 days.) This splendid new Tomato introduced by the U. S. Department of Agriculture through the efforts of Dr. Fred J. Pritchard of the Bureau of Plant Industry. Fine in appearance very productive, shape deep globe and very fine table quality; color a most beautiful scarlet, ripening well up to the stem. This tomato is truly very much in advance of the ordinary sorts, a truly remarkable commercial variety. Be sure to try this wonderful Tomato. Pkt. 10c, oz. 50c, ½ lb. $1.50, 1 lb. $5.00.

Louisiana Pink. Wilt Resistant. (110 days.) This variety has been grown and selected for ten years by the Louisiana Experiment Station, Baton Rouge, La. A smooth flesh, medium size, Pink Tomato with a small seed cavity and few seeds. The skin is medium in thickness. An unusually heavy producer. Pkt. 10c, oz. 50c, ½ lb. $1.50, 1 lb. $5.00.

Gulf State Market. (110 days.) An excellent shipping tomato, fruits medium to large, round or globe shape and are smooth and free o. cracks, color deep purplish pink. The skin is firm and the flesh solid. One of the best purplish pink tomatoes. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

Trucker’s Favorite. (110 days.) The finest large-fruited purple tomato. Regular in form and size; thick meated and very solid. This is one of the largest smooth tomatoes grown. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

Matchless. (115 days.) The color is a rich red. The skin is so tough that it makes a splendid keeper and shipper, and is less liable to crack in wet weather than any other large tomato. Unsurpassed for market or table. Strong grower and very productive, bearing with undiminished vigor until frost. The fruit is free from core and the seed spaces comparatively small. Pkt. 10c, oz. 40c, ¼ lb. $1.25, 1 lb. $4.00.

SMALL SORTS FOR PRESERVES AND PICKLES

Yellow Pear Shaped. A popular sort for preserving and pickling. Probably the best sort for marketing purposes. Very prolific. Pkt. 10c, oz. 50c, ¼ lb. $1.50.

Yellow Plum. Not quite so large in size as Yellow Pear, producing oblong, plum-shaped fruits, ripening evenly and most desirable for preserving. Pkt. 10c, oz. 50c, ¼ lb. $1.50.

Our Tomato Seed are taken from selected fruits and are superior in every way.

HERBS

Packets of Either Varieties, 10c each, postpaid

Anise. Well known; has an agreeable aromatic odor and taste.

Basil. (Sweet). Used for flavoring soups and sauces.

Dill. The seeds are aromatic and are used in pickles.

Fennel. Leaves are largely used.

Marjoram. (Sweet). The tender tops are used green or dry for seasoning or flavoring.

Sage. Broad leaved English.

Summer Savory. Used extensively for dressing and soups.

Thyme. Used both green and dry for soups.

WHEN YOU PLANT YOU WANT THE BEST, SOW YOPP’S "CHIEF BRAND" FIELD SEED. THEY ARE BEST
TURNIPS AND RUTABAGAS

CULTURE—For spring crop sow them as early as the seed can be put into the ground in drills from 12 to 15 inches apart. Thin the young plants to stand 6 or 8 inches apart in the rows. For fall and winter crops sow Purple Top White Globe and other varieties from the middle of July to middle of September, also in drills as directed for the spring sowing. While field turnips are generally sowed broadcast, much the largest crops will be obtained by drill culture. Turnips must be grown very rapidly to be of the best quality. The most suitable soil is a rich, friable loam, free from fresh manure.

One ounce will sow 400 feet of drill or 20 x 20 feet square. An acre requires 1 ½ lbs. in drill, 2 lbs. broadcast.

PURPLE TOP FLAT STRAP-LEAF TURNIP

PRICES INCLUDE POSTAGE

Purple Top Flat Strap Leaf. (60 days). The demand for this popular variety is always heavy. We take special care to secure extra selected seed from the most carefully grown stock. Has a bright purple top, white underneath. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, 5 lb. $2.50.

RUTABAGA

American Yellow Purple Top. (95 days). The most satisfactory variety to grow for either family use or stock feeding. It is hardy, productive, sweet, solid and fine quality. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, 5 lbs. $3.00.

EARLY PURPLE TOP MILAN TURNIP

Early Purple Top Milan. (50 days). The earliest variety in cultivation. Ready for use a week earlier than any other. Shape flat and smooth. Medium size with bright purple top and few leaves. Pkt. 10c, ¼ lb. 35c, 1 lb. $1.00.

Purple Top White Globe. (70 days.) One of the handsomest and most profitable turnips, unsurpassed for either home or market use. Is a large, rapid-growing sort with globe-shaped roots, purple at top and white underneath. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, 5 lbs. $3.00.

White Flat Dutch Strap Leaf. (55 days). The standard early turnip, flat in shape, smooth, and with clean, white skin. Flesh mild, juicy and of excellent flavor. Matures quickly and grows to medium size. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, 5 lbs. $2.50.

Pomeranian White Globe. (75 days.) Produces immense, white, globe-shaped roots, which in rich ground, frequently attain a weight of 12 pounds. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, 5 lbs. $3.00.

White Egg. (60 days). This turnip forms a beautiful egg-shaped root, with a thin, white skin. Pkt. 10c, ¼ lb. 25c, 1 lb. 75c, 5 lbs. $2.50.

Seven Top. A variety of Turnip grown entirely for its tops, which are used as a salad. Produces no edible fruit. This is a very hardy sort, standing through the winter without any protection. Pkt. 10c, ¼ lb. 20c, 1 lb. 50c, 5 lbs. $2.25.

TOBACCO SEED Prices Include Postage

One ounce sows 150 square yards, sufficient to set 6 to 8 acres.

Improved One Sucker. A good medium width and long-leaf heavy tobacco. A true one-sucker. Good Italian grade. ¼ oz. 25c, ½ oz. 40c, 1 oz. 75c, ¼ lb. $2.50.

Madow. Broad leaf, medium early. We think one of the best varieties for all purpose; one of the best wild fire resistant tobaccos grown. ¼ oz. 25c, ½ oz. 40c, 1 oz. 75c, ¼ lb. $2.50.

Black Kelly. One of the best extra early tobaccos grown. Has a broad, short leaf, easy worked and a splendid all-purpose tobacco. ¼ oz. 25c, ½ oz. 40c, 1 oz. 75c, ¼ lb. $2.50.

Judy's Pride White Burley. Burley tobacco is becoming more popular each year, and this variety seems to be the best adapted to this section. ¼ oz. 25c, ½ oz. 40c, 1 oz. 75c.

Use Nitrate of Soda for Plant Forcing
SEED CORN—White

Paducah Market. (70 days.) A very early fair sized ears, well filled, recommended highly for roasting ears and planted largely for early maturing field corn. 10 lbs. $1.00, bu. $3.00.

Silver Mine. (90 to 100 days.) One of the very best yielding White Dent corns. Originated in Ford County, Illinois, and introduced in Iowa. Creamy white in color, cylindrical shape, tapering only a little at the tip; 18 to 20 rows; length 9 inches circumference; 7 1-4 inches; kernels rough and deep, a little space between rows. A fine shelling and high-yielding variety. ¼ bu. $1.00, bu. $3.00.

Hickory King. (100 to 110 days.) An old favorite sort, well known in this locality. Ears are rather small, but usually 2 or 3 on the stalk, and it is a good yielder. The cobs of this variety are small, a single grain of corn sometimes being large enough to cover a cross section of the cob. The grains are very large, flinty, and of the finest quality for milling or feeding. ¼ bu. 90c, bu. $3.00.

Tennessee Red Cob. (120 days.) An extra large field corn, the ears of this sort run from 9 to 12 inches long and have from 18 to 20 rows. It is a rather late maturing sort, but for bottom land and late crops this corn cannot be excelled. One of the best milling corns; stalks from 8 to 12 feet high and broad and short jointed. It makes one of the best ensilage corns. ¼ bu. 90c, bu. $3.00.

Boone County. (100 to 110 days.) It is a very large, white corn, somewhat like Silver Mine, larger and later. Ear 10 to 11 inches long, cylindrical; 18 to 22 rows. Grain deep and rather rough. Well filled at both ends. Cobs always white and medium size. ¼ bu. 90c, bu. $3.00.

Red Cob White Dent. (100 to 110 days.) One of the best all-around deep grain corns with red cob we know of. This corn was introduced in our county years ago, and the grower who grows our seed for us has been improving his stock for years. The ears average 10 to 12 inches in length, of uniform size and a good depth of grain. Rows 18 to 20, well filled. The yield of this corn is very large and produces the finest white milling corn. ¼ bu. 90c, bu. $3.00.

SEED CORN—Yellow

Reid's Yellow Dent. (100 days.) This is now the standard variety in many of the corn-growing sections of the Middle West. Ears average 9 to 10 inches, tapering slightly toward tip, are about 6 inches in circumference, contain from 14 to 16 rows and are remarkably uniform. Kernels light yellow, deeply dented and well placed on a cob of medium size. ¼ bu. 90c, bu. $3.00.
HOTKAPS are inexpensive to use. One man can “set” over 3000 of them per day.

Write us now about this money-making crop necessity, or simply order your season’s supply now.

Prices: 1,000 lots, $11.50; 5,000 lots, $11.00 per M; 10,000 lots, $10.75 per M; 250 Trial Package, including Garden Setter with Tamper, $4.00; 100 Home Package, including Garden Setter with Tamper, $2.50; Germaco Hotkap Steel Setter with Tamper, $2.50; postage extra.

Weights: 1,000 package HOTKAPS, 26 lbs.; 250 package, 9 lbs.; 100 package, 5 lbs.; Steel Hotkap Setter, 3 lbs.

Earlier to market for higher prices

Germaco HOTKAPS—“individual hothouses for every plant”—are made of waxed paper in the form of a cone which completely covers the plants—the only way to fully protect them from frost. HOTKAPS also protect against rain, wind, ground-crusting and insects—your assurance of faster-growing, hardier plants, with larger yields and greater profits, because you market earlier.

MYERS SELF-OILING ELECTRIC WATER SYSTEMS

For Shallow and Deep Wells

Self-Oiling—Self-Starting—Self-Stopping
Complete Automatic Control of Air and Water
Styles and Sizes for Any Installation Up to Ten Thousand Gallons of Water per Hour.

More than fifty years of experience is back of every Myers Water System. All are typical of Myers superior quality. Expert engineering design, practical improvements, careful workmanship, assure users the utmost in value.

You can now enjoy running water conveniences equal to those provided by city water service. House, stables and yards—anywhere about the premises—water at the turn of a faucet automatically supplied means a saving of time and labor that quickly pays for a Myers Water System. The Myers company builds water system—hand, wind, engine or motor operation—for deep or shallow wells, in styles and sizes to meet your requirements, gallons a day or thousands of gallons an hour.

Ask for Catalog and Prices on the Complete Myers Line of Water Systems.
Lespedeza. (Japan Clover). This crop is exceedingly valuable to the farmer in building the fertility of his land. It is never necessary to buy nitragin for fertilizer when this can be obtained through Lespedeza which is the surest of any known legume. In this section there is no legume so valuable and no legume so sure. You don't need Lime and you don't need fertilizer to grow Lespedeza. Especially is this true of Kobe and Korean Lespedeza. It has several advantages over Red Clover. First, it will grow well on soil that has not been limed. Second, it will grow on worn out and poor land. Third, it has lasting qualities uncommon in Red Clover as it will continue to reseed the land. It does not require inoculation. It is remarkable drought resisting. Several of the largest fruit growers are using Lespedeza as a cover crop or mulch crop in their apple orchards, when this can be obtained through Lespedeza which is the seed. Sometimes the yield is more than from the vine-growing sorts. This variety is a favorite in the Middle West on account of its early maturity and habit of growth. Clay Cow Peas. A favorite variety in the South. Grow similar to Black. Produce abundance of vine. Color of pasture is a mixture of Clays, Whippoorwills, Blacks and some other sorts, which are offered at a lower price. Price fluctuates. Write for prices on all Cow Peas. EDIBLE COW PEAS Black Eyed Peas. Large black eyed peas make a profitable crop for picking before getting dry, and sold on the market, or the dry peas sold during the winter. Price fluctuates. Write for prices. Lady Peas. Very fine for table use. Very small. Rice Peas. Round, medium size, white peas. Cook very quickly. Brown Crowders. Very fine for table use; also make good hay crop. ASK FOR PRICES SORGHUM OR CANE Texas Honey Dew. One of the best Sorghums ever used for making molasses. Makes a clear, fine syrup, rich amber color, containing much more saccharine matter than syrups from other cane. 1 lb. 10c. Blue Ribbon. This is one of the best varieties of Sorghum for Syrup. Largely planted in this section and a favorite sort among our farmers. 1 lb. 10c. Early Orange. For molasses or fodder. It is a favorite in Southern States, as it produces a heavier crop. 1 lb. 10c. Early Amber Sorghum. (For fodder only). Furnishes a large yield of most nutritious forage, which can be fed either green or cured. Will yield two or three cuttings a year, shooting out thicker each time it is cut. 1 lb. 10c. Write for bushel prices. Write for prices on larger quantities. KAFFIR CORN White Kaffir. This grain makes most nutritious feed and can be used for both stock and poultry. 1 lb. 10c. Russian. A highly prized fodder plant of the Kaffir Corn type, but maturing from 15 to 20 days earlier than Kaffir Corn. It is also remarkable for its drought-resistant quality. 1 lb. 10c. We also have in stock, Red Kaffir Corn, Dwarf White Kaffir Corn, Milo Maize and Jerusalem Corn. Write for prices.

THE MODERN WAY OF COOKING AND CANNING IS THE BURPEE WAY

BURPEE CAN SEALER $20.00

The Burpee Can Sealer is exceedingly simple and anyone, even a child, can quickly acquire the knowledge necessary to operate it successfully.
It is complete in itself, and all that is required is to attach it to a shelf or table with the strong double screw clamps with which it is provided and it is ready for action.
Likewise the machine is also for cutting the tops off cans, as well as reflanging cans that have been previously used. Special rolls are furnished for these operations. Write for prices on cans.

Dewberry

The New Young Dewberry
A hybrid Dewberry originated in Louisiana, bears larger fruit than the popular Lucretia variety, exceptionally high dessert quality. The berry is an attractive deep wine color. It has been found resistant to Anthracnose disease, and has been found especially suitable for culture in Southern states. This Dewberry has attracted very much attention because of its exceptional qualities of both its fruit and plant. Prices: 3 plants for 50c, 12 plants for $1.25.

Lucretia. 5c ea., per 100 $4.00. Postage or express prepaid.

LATHAM--The Big Red Raspberry

A Big Money Maker for Berry Growers

The ability of Latham to produce so heavily, together with the fine appearance of the fruit and its splendid shipping qualities make it one of the most profitable Red Raspberries now grown.

Its extreme hardiness and splendid vigor insure big crops. It stands shipping well and tops the market. It combines all of the good qualities for profitable berry raising.

EASY TO GROW

Latham Raspberries can be easily grown in the home fruit garden and they require little care.

Set red raspberry plants 3' to 5' apart in rows 6' to 8' apart. Plant 2 or 3 inches deeper than they were in the nursery. Cut back all stems as soon as planted to within 1 to 3 inches of the ground. Don't let any fruit set first year. Cultivate well between the rows to destroy weeds and sprouts, not allowing the new shoots to make rows over 6 to 8 inches wide. After fruiting cut out old canes and burn, leaving 6 or 8 vigorous new ones to grow for fruiting the following year. In the spring cut off the top 12 inches or possibly more of previous season's growth to strong, well ripened wood.

Start right! Plant LATHAM (Redpath Strain) Mosaic-free Stock Per 100 $4.00; per 1,000 $30.00. Write for prices in large quantities.

AROMA STRAWBERRY

The famous berry grown by McCracken County Berry Growers Association. Brings highest prices on all Northern markets. Genuine Aroma plants. Price, 100 for $1.00; 1,000 at $4.00 per 1,000.

Premier. Fine, large, early. Per 100 $1.25; per 1,000 $6.00.

Gandy. Late. Per 100 $1.25; per 1,000 $10.00.

Postage or Express Extra.

MASTODON

Mastodon Everbearing Strawberry. The largest everbearing Strawberry yet introduced, sometimes run as large as 5 inches around, very uniform as to size and at no time do they run small. They are just as large in September, October and November as they are in July and August the first of the everbearing season. This uniform large size all through the everbearing season is one of the outstanding features of the variety.

HOW THEY BEAR

First crop: Set plants in April (Spring) begin picking ripe berries in July (90) days, continue through August, September and October.

Second crop: This comes next Spring during May and June.

If you will at least plant a few of this wonderful large everbearing Strawberry you will always continue to grow the Mastodon. Price: 25 plants $1.00, 50 plants $1.50, 100 plants $2.00, 1,000 plants $15.00.
SHADE TREES

American Red Bud, 3 to 4 feet 50c; 5 to 6 feet 75c.

Postage extra on bulbs, 5c each, 15c per dozen, 25c per 100.
FLOWER SEED

CULTURE—Most flower seed should be planted shallow and kept covered with old cloth or jute sacks until sprouted, to prevent drying out. Plant in rows for easy tending and keep weeds pulled out. Be sure first that they are weeds. With slow growing seeds it is a good plan to drop a few cabbage or radish seeds, as they will come up quickly and mark the rows for you. Use pulverized sheep manure.

Unless otherwise specified, the flowers are in mixed colors, as most people prefer them that way. On some we offer separate colors, but in such cases the colors are named.

The following letters will be used to distinguish the Class to which the flowers belong.

Flower seed in 10c pkts. 6 for 50c, or 12 for 80c, in bulk, ½ ounce at ounce prices. Postage prepaid by us.

Everyone should plant a flower bed, as it encourages the little ones and there is nothing more attractive than a pretty flower bed.

Abronia (Sand Verbena), A. Hardy Annual, resembling the Verbena in its style of growth, of trailing habit and thrives in poor soil and dry location. Its fragrant flowers are borne in clusters. Mixed. Pkt. 10c.

Ageratum. One of the best Summer blooming plants, has soft Lavender Blue Flowers. Pkt. 10c.

Alyssum, A. Popular little plants for edging or massing, blooming profusely all summer. Begins blooming very early in the spring, covering itself with clusters of small pure white flowers. White. Pkt. 10c, oz. 25c.

Amaranthus, A. The leaves and stems are different shades of red, blended with green. Mixed varieties. Pkt. 10c, oz. 35c.

Antirrhinum (Snapdragon), P. Beautiful spikes of gaily colored flowers. (Large flowering mixed). Pkt. 10c, oz. 75c.

Aquilegia (Columbine), P. Very desirable for grouping among shrubs. Pkt. 10c.

A ST ERS

One of the best and most popular flowers grown. Sow indoors and under glass during February or March and transplant to open ground in May. Asters do better when transplanted twice.

American Branching Asters, A. Favorite long stem strain. All colors mixed. Pkt. 10c, oz. $1.50.

Giant Comet Asters, A. Of fine branching growth. The large flowers are very desirable for cut flowers. (Mixed). Pkt. 10c.

Perfection. Flowers exquisite in form and plants equal in height to late upright Asters, averaging four to five in. in diameter. Colors—White, rose, lavender, purple and mixed. Pkt. 25c, 5 pkts. $1.00. Postpaid.

Calycanthus (Coreopsis), A. Very showy, bearing a profusion of bright flowers. Yellow and rich brown mixed. Pkt. 10c, oz. 50c.

Carnation. (Marguerite), P. Crosby’s large fragrant carnations produce fine double flowers. All colors. Pkt. 10c.

CANDYTOFF, A. Showy branching plants 6 to 8 inches high. Empress white. Pkt. 10c, oz. 40c. Mixed colors, Pkt. 10c, oz. 40c.

Cannas. (Indian Shot). Crosby’s flowering dwarf. Pkt. 10c.

Canterbury Bells. An old favorite hardy plant, has large bell shaped flowers. Colors including shades of blue, rose and white. Pkt. 10c.

Carnation. (Marguerite), P. These lovely fragrant carnations produce fine double flowers. All colors. Pkt. 10c.
FLOWER SEED—Continued

Castor Beans, (Ricinus), A. Tall, majestic plants for lawn. Pkt. 10c.

Centaurea (Dusty Miller), A. For bedding, hanging baskets and edging. Pkt. 10c.

Centaurea (Cornflower or Bachelor Button), A. One of the old fashioned flowers. Pkt. 10c, oz. 40c.

Chrysanthemum, A. Flowering freely during summer and fall. Quite ornamental. Pkt. 10c.

Clarkia, A. These showy plants are grown for their foliage. Pkt. 10c.

Coreopsis, P. Very showy, producing a profusion of beautiful yellow flowers. Pkt. 10c, oz. 40c.

Cosmos, A. Beautiful and extremely graceful autumn blooming plants with finely cut foliage; mammoth flowering. Pkt. 10c.

Shasta Daisy. Large Snow White flowers with Yellow Centers borne on long wiry stems, blooms abundantly until frost. Good for cut flowers. Pkt. 10c.

Dahlia, A. A favorite for autumn flowering, blooming the first season from seed if started early. Pkt. 10c.

Dianthus. (Pinks), B. Few flowers can equal these in profusion and bloom. Double mixed. Pkt. 10c.

Euphorbia, A. (Snow on the Mountain) Strong growing annual, the rich green leaves being heavily margined with white. Pkt. 10c.

Gillardia, P. (Blanket Flower). Large beautiful flowers which bloom till frost. Pkt. 10c.

Godetia. Useful for beds or mixed borders. The flowers are cup shaped and do well in most any soil. Pkt. 10c.

Gypsophila, A. (Baby's Breath). A greatly esteemed hardy plant, bearing dainty mist-like white flowers. Used for mixing with other large flowers in bouquets. Pkt. 10c.

Helichrysum, A. Sometimes called straw flower. Large, full double daisy-like flower. Desirable as dried specimens and for use in making winter bouquets. Pkt. 10c.

Heliotrope, P. Well known and much admired border and bedding plants, highly valued for the blue color and fragrance of their branching clusters of small salver-shaped flowers. Pkt. 10c.

Hollyhock, P. This fine old fashioned flower is again in the widest favor. Pkt. 10c.

Kochia, A. (Summer Cypress, Burning Bush). A very attractive quick growing foliage or hedge plant, bright green color. Early in the fall the bush turns to a fiery red. Pkt. 10c.

Larkspr, A. Produces spikes of double flowers in many shades. Pkt. 10c.

Lantana, A. Shrubby plant with Verbena-like flowers, may be grown in pots or set out in open. Colors range from orange, white, to rose and red. Mixed. Pkt. 10c.

Lupinus, P. Free flowering, early grown annuals, with long spikes of rich and various colored pea-shaped flowers. Mixed. Pkt. 10c.

Mourning Bride, A. (Scabiosa). An old fashioned but most attractive flower. Its great abundance and long succession of richly colored, fragrant blossoms on long stems make it one of the most useful decorative plants of the garden. Pkt. 10c.

Marvel of Peru, A. (Four O’clock). Well known and popular flower. Pkt. 10c.

Nasturtium, A. (Dwarf). No flower has more points of merit or is more popular. (Tall Mixed), A. Fine for covering arbors, trellises, etc. Pkt. 10c, oz. 20c.

Nicotiana, A. (Sweet Scented Tobacco Plant). A very beautiful and fragrant tall border plant flowering throughout summer and fall. Mixed. Pkt. 10c.

Pansy, A. Pansies are now produced in almost infinite color and markings. Giant flowering. Especially fine mixture of very large blotched and stained flowers. Pkt. 10c, oz. $2.50. All colors mixed.

PANSY
FLOWER SEED—Continued

Salvia or Scarlet Sage. A splendid hardy perennial used for rookeries and borders and producing panicles of graceful flowers of the everlasting type, can be dried and used for winter bouquets. Pkt. 10c.

Sunflower (Helianthus), A. Valuable as a screen to hide unsightly places and as a background for lawns. Pkt. 10c.

Sweet Violets. This beautiful and fragrant flower is a favorite everywhere; the plants should be grown in a rich, moist soil. Pkt. 10c.

Sweet William, P. Fine for display in beds or borders. Many brilliant colors. Pkt. 10c, oz. 50c.

Verbena, A. In the varieties may be found every color from white through lilac rose to purple. All colors mixed. Pkt. 10c.

Zinnias. (Youth and Old Age or Old Maids). No flowers are more easily and certainly grown from seed sown in the open ground. They bloom continuously. Double mixed. Pkt. 10c, oz. 50c. Straight Color, Pkt. 10c, oz. 75c.

FLOWERS FROM SEED FOR SHADY PLACES

Canterbury Bells 
Myosotis
Columbine 
Pansy
Coreopsis 
Verbena
Foxglove 
Lobelia

Wild Flower Garden. A mixture of from 50 to 75 varieties of hardy flowers, all beautiful and easy to grow. For covering untidy looking places, fence corners and embankments. Will produce a continuous display of bloom all summer long. Large package, 10c.

LIST OF VINES

Be sure to plant vines to have plenty of shade during the summer

Balsam Pear. A very desirable climber. When kept in alcohol makes a most effective pain cure and healer of cuts, bruises, etc. Pkt. 10c, oz. 50c.

Cardinal Climber, A. A most beautiful vine of very rapid growth, with delicately cut, fern-like foliage and producing in abundance dainty star-shaped, scarlet flowers. Pkt. 10c.

Cypress Vine. One of the prettiest in cultivation. Sow the seeds thickly, so as to make a thick growth. White and scarlet blooms. Pkt. 10c, oz. 50c.

Hyacinth Bean. Climber of quick growth, bearing large clusters of purple and white flowers, which are followed by bright, purple pods. Pkt. 10c, oz. 20c.
LIST OF VINES—Continued

Kudzu Vine. A. The most rapid growing vine in cultivation. Will grow from 20 to 40 feet in one season. Has large heart-shaped leaves and small, rosy-purple pea-shaped flowers. Pkt. 10c.

Moonflower. (Evening Glory). Beautiful rapid climber. Very large, white flowers, which open in the evening and on cloudy days. Before planting it is best to file a small hole in one end through the outer hulk and soak for about 24 hours in warm water. Pkt. 10c.

Morning Glory. (Imperial Japanese.) The best of all Morning Glories; all colors. Makes lots of vines. Pkt. 10c, oz. 20c.

Morning Glory. (Common). All varieties, mixed. Pkt. 10c.

Maderia Vine Roots. A popular climber, will run 20 feet or more. Doz. 75c.

Gourds. All varieties, mixed. Pkt. 10c.

SWET PEAS

SPENCER VARIETIES

The Spencers are of exceptionally large size, the standard, and wings waved or frilled and the general effect remarkably graceful and attractive. The plants are of vigorous growth and remain in bloom for a longer period of time than the Grandiflora sorts. Also have longer stems.

THE AMERICAN BEAUTY DUST SPRAYER

Is the most powerful portable duster built. One man carrying and operating the American Beauty can dust trees up to 25 feet in height and thoroughly cover from 5 to 15 acres per day in orchard work and corresponding acreage in truck crops.

Price $20.00

California Beauty Duster

Has the same general appearance of the American Beauty, except is smaller. The bellows action is so rapid as to give an almost continuous flow of dust and still completely under control at all times. This feature makes it ideal for row crops such as Peas, Beans, Cabbage, Cauliflower, etc.

Weighs less than 10 pounds, and holds 12 pounds of dust. Throws dust 12 feet.

Price only $13.50

THE CALIFORNIA BEAUTY DUSTER

Cuts 1 1/2 inch limbs easily.
